

Up to 12 channels of TV. £2. Rocket science this isn't.

As you know, there aren't many aerals on Milton Keynes' skyline – it's not exactly been a great place to watch TV. But it doesn't have to be like that anymore. ntl have devised a unique communications package for Milton Keynes, offering extra TV, Internet and great phone deals for just £2 a month. So now you can really broaden your horizons...

For a minimum spend of £10 a month - which is what most people spend on phone calls anyway - you can get this special package.

Think of the usual TV channels, then add 6 more. Including Sky One, BBC News 24, Eurosport, and access to other cable and satellite channels. Now, that is something new for Milton Keynes.. access to satellite TV without a dish. And that's just the starter pack, you can add as many extra channels as you want from as little as £5 a pack.

And if you want access to movies on demand through ntl's Front Row service, you can have them. With screenings from as often as every 15 minutes, you can get blockbuster films at the times that suit you, even when the video rental store is closed.

The telephone part of the package offers national calls at local rates, using your existing BT line. It's when you call that matters, not how far. 3p for weekdays, 2p for evenings, and 1p for weekends, plus a 3.5p connection charge for each call. So now you can distant phone friends and relatives for the same price as calling next door.

ntl also offers PC owners free access to the Internet to enjoy all the benefits of the web. E-mail friends, shop from home, pay your bills when you want to pay them.

It's simple, really. ntl offers a great value telephone service with easy tariffs, better TV choice, and billing that won't tie you up in string. And it doesn't take Rocket Science to work out how much more you'll get, and how easier life will be.

Call free on 0800 052 7850

ntl some questions answered.

I'm already a ntl TV customer. Will I be able to get this great telephone deal in addition to what I already have?

Sure. You can also switch to the Starter Plus pack for just £2 a month, if you spend at least £10 a month on ntl's telephone service. And if you take a quick look at your latest bill from BT, you'll probably wish you did spend that little. So all in all, you'll get more than what you already have, for less.

Is free Internet really free?

Yes it is, and we're not just talking about those free CDs you can get from banks, supermarkets or libraries, where you end up paying huge phone bills. Free Internet with ntl means: no set up costs, no monthly fees, and more importantly, no call charges.

Will the TV and Telephone come through the same connection?

No, we'll provide a special compact adaptor that fits neatly over BT's existing socket to reroute all your calls over the ntl network. This ensures you benefit from ntl's great 3,2,1 tariff. And as for the TV, the cable just plugs straight into your set-top box which comes as part of the deal.

What kind of channels can I get in addition to the six I get in ntl's Starter Plus pack?

Whatever you want there's something for you. Just pick one of our great TV packs such as Music and Youth, including MTV and the Cartoon Network, Classics for all your old favourites from UK Gold and Granada Plus; Premium Sports for live action from the FA Carling Premiership and other top sporting events, and, Premium Movies to take a seat for the latest and greatest films and the best of Disney.

Will I have to switch phone numbers as well?

No, ntl lets you keep your existing number. And you can also have the option of adding additional features like: Voicemail, Call Waiting, Call Divert, or even Three Way Chat, so you can talk to more than one friend at the same time.

Of course the only thing you'll be switching is TV channels, to experience the variety ntl's Starter Plus Package offers for just £2 a month.
